Directeur de la critique de livres

Subjects

Aberrant regeneration: see Cranial nerve diseases

Acanthamoeba:

Acanthamoeba keratitis in a soft-contact-lens wearer, Rabino-
vitch J et al, 25-28

Acanthamoeba keratitis with two species of *Acanthamoeba*,
Beattie AM et al, 260-262

Acanthamoeba castellanii:

Acanthamoeba keratitis with two species of *Acanthamoeba*,
Beattie AM et al, 260-262

Acanthamoeba polyphaga:

Acanthamoeba keratitis with two species of *Acanthamoeba*,
Beattie AM et al, 260-262

Accident prevention:

Badminton-related eye injuries [C], McWhae J et al, 170

Pioneers of prevention [E], Addison DJ, 283-284

Acetylcholine:

Control of intraocular pressure after cataract extraction,
Hollands RH et al, 128-132

Acetylsalicylic acid: see Aspirin

Acquired immunodeficiency syndrome:

The ocular manifestations of sexually transmitted diseases,
Deschênes J et al, 177-185

Additives: see Excipients

Adenocarcinoma:

In situ adenocarcinoma ex pleomorphic adenoma of the
lacrimal gland, Hartwick RWJ et al, 213-217

Adenoma:

In situ adenocarcinoma ex pleomorphic adenoma of the
lacrimal gland, Hartwick RWJ et al, 213-217

Adenoma, pleomorphic: see Adenoma

Administration, topical:

Topical 2.5% and 5% phenylephrine: comparison of effects
on heart rate and blood pressure, Hakim OJ et al, 336-339

Adrenal cortex hormones:

The concept of corticosteroid cataractogenic factor revisited,
Fournier C et al, 345-347

Sarcoidosis of the eyelid skin, Brownstein S et al, 256-259

Adverse effects: see Drug therapy

AIDS: see Acquired immunodeficiency syndrome

Amaurosis: see Blindness

Anaerobic infections: see Bacteria, anaerobic

Angioplasty, transluminal:

Bilateral ophthalmoplegia during percutaneous transluminal
coronary angioplasty, Drummond GT et al, 152-155

Angle closure: see Glaucoma, angle-closure

Animal model: see Rats

ASA: see Aspirin

Aspirin:

Effect of antiplatelet drug therapy on the retinal vascular pat-
tern in experimental diabetes mellitus, de la Cruz JP et al,
329-332

Aviation:

Canadian visual standards in aviation, Liddy BStL et al,
325-328

Awards and prizes:

Thirty-five years of dedicated research [E], Addison DJ,
175-176

Bacteria, anaerobic:

Bacteroides fragilis endophthalmitis: a case report, Kelly LD et
al, 208-209

Bacteroides fragilis:

Bacteroides fragilis endophthalmitis: a case report, Kelly LD et
al, 208-209

Biopsy:

A miniaturized vitrectomy system for vitreous and retinal
biopsy, Peyman GA, 285-286

Blepharoplasty:

Nonsurgical aesthetic alteration of the eyelids in pathological
conditions, Hurwitz JJ et al, 197-201

Biopsy:

A miniaturized vitrectomy system for vitreous and retinal
biopsy, Peyman GA, 285-286

Blepharoplasty:

Nonsurgical aesthetic alteration of the eyelids in pathological
conditions, Hurwitz JJ et al, 197-201

Blindness:

Leber's congenital amaurosis with Duchenne's muscular dystrophy, Hazariwala K et al, 202-207

World blindness: governments talk, ophthalmologists act, Garner J, 358-363

Blood pressure:

Topical 2.5% and 5% phenylephrine: comparison of effects on heart rate and blood pressure, Hakim OJ et al, 336-339

Blood vessels:

Effect of antiplatelet drug therapy on the retinal vascular pattern in experimental diabetes mellitus, de la Cruz JP et al, 329-332

Brachytherapy:

A clinicopathological study of seven globes enucleated after primary radiation therapy for malignant melanoma of the choroid or ciliary body, Liszauer AD et al, 340-344

Camouflage:

Nonsurgical aesthetic alteration of the eyelids in pathological conditions, Hurwitz JJ et al, 197-201

Canadian Ophthalmological Society:

Annual meeting gets good rating from participants, Garner J, 263-274

Thirty-five years of dedicated research [E], Addison DJ, 175-176

XXVth International Congress of Ophthalmology at Singapore sets high standard for Canada to follow, Garner J, 218-223

53rd Annual Meeting: a date with history, Garner J, 44-48

Carbachol:

Control of intraocular pressure after cataract extraction, Hollands RH et al, 128-132

Carcinoma:

The management of chalazion: a survey of Ontario ophthalmologists, Smythe D et al, 252-255

Carcinoma in situ:

In situ adenocarcinoma ex pleomorphic adenoma of the lacrimal gland, Hartwick RWJ et al, 213-217

Cataract:

Lens opacity as a predictor of visual field impairment due to cataract, Crichton A et al, 287-289

Topical 2.5% and 5% phenylephrine: comparison of effects on heart rate and blood pressure, Hakim OJ et al, 336-339

Unsuspected uveal melanoma diagnosed after cataract extraction, O'Leary SW et al, 333-335

World blindness: governments talk, ophthalmologists act, Garner J, 358-363

Cataract, infantile: see Pediatrics

Cataract extraction:

Comparison of prednisolone acetate and indomethacin for maintaining mydriasis during cataract surgery, Dubé P et al, 234-238

Control of intraocular pressure after cataract extraction, Hollands RH et al, 128-132

Effect of flurbiprofen on the maintenance of pupillary dilation during cataract surgery, Heinrichs DA et al, 239-242

Lens opacity as a predictor of visual field impairment due to cataract, Crichton A et al, 287-289

A prospective comparison of 4% polyacrylamide (Orcon) and 1% sodium hyaluronate (Healon) in cataract and intraocular lens implant surgery, Laflamme MY et al, 229-233

Unsuspected uveal melanoma diagnosed after cataract extraction, O'Leary SW et al, 333-335

Cataract extraction, extracapsular:

Comparison of prednisolone acetate and indomethacin for maintaining mydriasis during cataract surgery, Dubé P et al, 234-238

A prospective comparison of 4% polyacrylamide (Orcon) and 1% sodium hyaluronate (Healon) in cataract and intraocular lens implant surgery, Laflamme MY et al, 229-233

Cataract surgery: see Cataract extraction

Cellulitis:

Clinical management of orbital cellulitis in children, Noël LP et al, 11-16

An unusual case of orbital cellulitis, Jordan DR et al, 210-212

Chalazion: see Eyelid diseases

Chlamydia:

The ocular manifestations of sexually transmitted diseases, Deschênes J et al, 177-185

Chloroquine:

Is corneal deposition of antimalarial any indication of retinal toxicity?, Easterbrook M, 249-251

Sarcoidosis of the eyelid skin, Brownstein S et al, 256-259

Choristoma:

Histopathological features of congenital fundus lesions in familial adenomatous polyposis, Parker JA et al, 159-163

Chrysomya:

External ophthalmomyiasis associated with herpes zoster ophthalmicus, Verma L et al, 42-43

Cicatrix:

Changing indications for penetrating keratoplasty in Vancouver, 1978-87, Damji KF et al, 243-248

Ciliochoroidal effusion: see Uveal diseases

Cilioretinal arteries:

Possible significance of cilioretinal arteries in low-tension glaucoma, Mikelberg FS et al, 298-300

Compartment syndromes:

Orbital compartment syndrome. Direct measurement of orbital tissue pressure: 1. Technique, Kratky V et al, 293-297

Competence, professional: see Professional competence

Complications, intraoperative:

Bilateral ophthalmoplegia during percutaneous transluminal coronary angioplasty, Drummond GT et al, 152-155

Congresses:

Annual meeting gets good rating from participants, Garner J, 263-274

XXVth International Congress of Ophthalmology at Singapore sets high standard for Canada to follow, Garner J, 218-223

Conjunctiva:

Amelanotic malignant melanoma of the conjunctiva with local metastasis to the eyelid, Jordan DR et al, 34-37

Contact lenses:

Acanthamoeba keratitis in a soft-contact-lens wearer, Rabino-vitch J et al, 25-28

The "O" sign — clue to a lost lens, Bellan L et al, 348-350

Continuing medical education: see Education, medical, continuing

Cornea:

Acanthamoeba keratitis with two species of Acanthamoeba, Beattie AM et al, 260-262

Corneal changes in Tay-Sachs disease, Ghosh M et al, 190-192

Hexagonal keratotomy for intraocular lens miscalculation, O'Dell L et al, 355-357

Is corneal deposition of antimalarial any indication of retinal toxicity?, Easterbrook M, 249-251

Corneal diseases:

Changing indications for penetrating keratoplasty in Vancouver, 1978-87, Damji KF et al, 243-248

Corneal dystrophies:

Changing indications for penetrating keratoplasty in Vancouver, 1978-87, Damji KF et al, 243-248

Corneal ulcer:

Acanthamoeba keratitis with two species of Acanthamoeba, Beattie AM et al, 260-262

Coronary angioplasty: see Angioplasty, transluminal

Corticosteroids: see Adrenal cortex hormones

Cosmesis:

Nonsurgical aesthetic alteration of the eyelids in pathological conditions, Hurwitz JJ et al, 197-201

Cranial nerve diseases:

Acquired oculomotor-abducens synkinesis, Jordan DR et al, 148-151

- Superior oblique palsy: diagnosis and treatment, Flanders M et al, 17-24
- Crohn disease:
Reversal of progressive nyctalopia in a patient with Crohn's disease, Gans M et al, 156-158
- Cryosurgery:
Amelanotic malignant melanoma of the conjunctiva with local metastasis to the eyelid, Jordan DR et al, 34-37
- Cryotherapy: see Cryosurgery
- Dark adaptation:
Variable expressivity in X-linked congenital stationary night blindness, Pearce WG et al, 3-10
- Dark adaptometry: see Dark adaptation
- Decompression:
Orbital compartment syndrome. Direct measurement of orbital tissue pressure: 1. Technique, Kratky V et al, 293-297
- Diabetes mellitus, experimental:
Effect of antiplatelet drug therapy on the retinal vascular pattern in experimental diabetes mellitus, de la Cruz JP et al, 329-332
- Diagnosis:
Unsuspected uveal melanoma diagnosed after cataract extraction, O'Leary SW et al, 333-335
- Differential threshold:
Clinical measures of central differential sensitivity in glaucoma, Capoferri C et al, 193-196
- Dipyridamole:
Effect of antiplatelet drug therapy on the retinal vascular pattern in experimental diabetes mellitus, de la Cruz JP et al, 329-332
- DNA markers: see Genetic markers
- Drops: see Administration, topical
- Drug evaluation:
Drug adverse reaction reports: an integral part of good ophthalmologic practice, Garner J, 311-318
- Drug surveillance, postmarketing: see Product surveillance, postmarketing
- Drug therapy:
The concept of corticosteroid cataractogenic factor revisited, Fournier C et al, 345-347
Drug adverse reaction reports: an integral part of good ophthalmologic practice, Garner J, 311-318
- Duane's retraction syndrome, acquired: see Ophthalmoplegia
- Duchenne's muscular dystrophy: see Muscular dystrophy
- Dystrophies: see Corneal dystrophies
- Education, medical:
Reassessing our ophthalmology programs [E], LeBlanc RP, 125-127
- Education, medical, continuing:
Society to debate professional competency issue, Simpson ER, 164-167
- Electroretinography:
Maturation of the photopic b-wave and oscillatory potentials of the electroretinogram in the neonatal rabbit, Gorfinkel J et al, 138-144
Reversal of progressive nyctalopia in a patient with Crohn's disease, Gans M et al, 156-158
Variable expressivity in X-linked congenital stationary night blindness, Pearce WG et al, 3-10
- Endophthalmitis:
Bacteroides fragilis endophthalmitis: a case report, Kelly LD et al, 208-209
Endophthalmitis caused by exogenous nocardial infection in a patient with Sjögren's syndrome, Heathcote JG et al, 29-33
- Enucleation, eye: see Eye enucleation
- Epiphora: see Lacrimal apparatus diseases
- Equipment design:
A miniaturized vitrectomy system for vitreous and retinal biopsy, Peyman GA, 285-286
- Excipients:
Drug adverse reaction reports: an integral part of good ophthalmologic practice, Garner J, 311-318
- Exophthalmos:
Clinical management of orbital cellulitis in children, Noël LP et al, 11-16
- Extraocular muscles:
Recession of the superior oblique tendon in A-pattern strabismus, Drummond GT et al, 301-305
Superior oblique palsy: diagnosis and treatment, Flanders M et al, 17-24
- Eye banks: see Tissue banks
- Eye diseases:
External ophthalmomyiasis associated with herpes zoster ophthalmicus, Verma L et al, 42-43
- Eye enucleation:
A clinicopathological study of seven globes enucleated after primary radiation therapy for malignant melanoma of the choroid or ciliary body, Liszauer AD et al, 340-344
- Eye foreign bodies:
The "O" sign — clue to a lost lens, Bellan L et al, 348-350
- Eyelid diseases:
The management of chalazion: a survey of Ontario ophthalmologists, Smythe D et al, 252-255
The "O" sign — clue to a lost lens, Bellan L et al, 348-350
Prevention of radiation-induced stenosis of the nasolacrimal duct, de Smet MD et al, 145-147
- Eyelids:
Amelanotic malignant melanoma of the conjunctiva with local metastasis to the eyelid, Jordan DR et al, 34-37
The management of chalazion: a survey of Ontario ophthalmologists, Smythe D et al, 252-255
Nonsurgical aesthetic alteration of the eyelids in pathological conditions, Hurwitz JJ et al, 197-201
Sarcoidosis of the eyelid skin, Brownstein S et al, 256-259
- Familial adenomatous polyposis: see Polyposis syndrome, familial
- Fat malabsorption: see Malabsorption syndromes
- Flurbiprofen: see Propionates
- Gardner syndrome:
Histopathological features of congenital fundus lesions in familial adenomatous polyposis, Parker JA et al, 159-163
- Generic equivalency: see Therapeutic equivalency
- Genetic markers:
Leber's congenital amaurosis with Duchenne's muscular dystrophy, Hazariwala K et al, 202-207
- Genetics:
Variable expressivity in X-linked congenital stationary night blindness, Pearce WG et al, 3-10
- Glaucoma:
Angle-closure glaucoma as initial presentation of myelodysplastic syndrome, Smith DL et al, 306-308
Glaucoma, angle-closure:
Angle-closure glaucoma as initial presentation of myelodysplastic syndrome, Smith DL et al, 306-308
Glaucoma, low-tension:
Possible significance of cilioretinal arteries in low-tension glaucoma, Mikelberg FS et al, 298-300
Glaucoma, open-angle:
Clinical measures of central differential sensitivity in glaucoma, Capoferri C et al, 193-196
- Gonorrhea:
The ocular manifestations of sexually transmitted diseases, Deschênes J et al, 177-185
- Graves' disease:
Orbital compartment syndrome. Direct measurement of orbital tissue pressure: 1. Technique, Kratky V et al, 293-297
- Heart rate:
Topical 2.5% and 5% phenylephrine: comparison of effects on heart rate and blood pressure, Hakim OJ et al, 336-339

- Herpes simplex:**
The ocular manifestations of sexually transmitted diseases, Deschênes J et al, 177-185
- Herpes zoster:**
External ophthalmomyiasis associated with herpes zoster ophthalmicus, Verma L et al, 42-43
- Hordeolum:**
The management of chalazion: a survey of Ontario ophthalmologists, Smythe D et al, 252-255
- Hydroxychloroquine:**
Is corneal deposition of antimalarial any indication of retinal toxicity?, Easterbrook M, 249-251
- Hyperopia:**
Hexagonal keratotomy for intraocular lens miscalculation, O'Dell L et al, 355-357
- Hypertension:**
Topical 2.5% and 5% phenylephrine: comparison of effects on heart rate and blood pressure, Hakim OJ et al, 336-339
- Hysteria:**
An unusual case of orbital cellulitis, Jordan DR et al, 210-212
- Indomethacin:**
Comparison of prednisolone acetate and indomethacin for maintaining mydriasis during cataract surgery, Dubé P et al, 234-238
- Inheritance, X-linked:** see Genetics
- Instruments:** see Equipment design
See also Surgical instruments
- Instruments, miniaturized:** see Equipment design

- Pediatrics:**
The concept of corticosteroid cataractogenic factor revisited, Fournier C et al, 345-347
- Perimetry:**
Clinical measures of central differential sensitivity in glaucoma, Capoferri C et al, 193-196
Use of suprathreshold test data to predict the results of quantitative testing in the nasal periphery, Orr A et al, 133-137
- Perimetry, color:** see Perimetry
- Phenylephrine:**
Topical 2.5% and 5% phenylephrine: comparison of effects on heart rate and blood pressure, Hakim OJ et al, 336-339
- Phthirus pubis:** see Lice
- Pigment epithelium of eye:**
Histopathological features of congenital fundus lesions in familial adenomatous polyposis, Parker JA et al, 159-163
The importance of congenital hypertrophy of the retinal pigment epithelium in familial adenomatous polyposis, Martow J et al, 290-292
- Pilocarpine:**
Control of intraocular pressure after cataract extraction, Hollands RH et al, 128-132
- Polyposis syndrome, familial:**
Histopathological features of congenital fundus lesions in familial adenomatous polyposis, Parker JA et al, 159-163
The importance of congenital hypertrophy of the retinal pigment epithelium in familial adenomatous polyposis, Martow J et al, 290-292
- Preventive medicine:**
Badminton-related eye injuries [C], McWhae J et al, 170
Pioneers of prevention [E], Addison DJ, 283-284
Thirty-five years of dedicated research [E], Addison DJ, 175-176
World blindness: governments talk, ophthalmologists act, Garner J, 358-363
- Product surveillance, postmarketing:**
Drug adverse reaction reports: an integral part of good ophthalmologic practice, Garner J, 311-318
- Professional competence:**
Society to debate professional competency issue, Simpson ER, 164-167
- Propamidine:**
Acanthamoeba keratitis in a soft-contact-lens wearer, Rabinovitch J et al, 25-28
- Propionates:**
Effect of flurbiprofen on the maintenance of pupillary dilation during cataract surgery, Heinrichs DA et al, 239-242
- Proptosis:** see Exophthalmos
- Prostaglandins:** see Prostaglandins X
- Prostaglandins X:**
Effect of antiplatelet drug therapy on the retinal vascular pattern in experimental diabetes mellitus, de la Cruz JP et al, 329-332
- Pupillary dilation:** see Mydriasis
- Rabbits:**
Maturation of the photopic b-wave and oscillatory potentials of the electroretinogram in the neonatal rabbit, Gorfinkel J et al, 138-144
- Radiation therapy:** see Radiotherapy
- Radioisotope teletherapy:**
A clinicopathological study of seven globes enucleated after primary radiation therapy for malignant melanoma of the choroid or ciliary body, Liszauer AD et al, 340-344
- Radiotherapy:**
A clinicopathological study of seven globes enucleated after primary radiation therapy for malignant melanoma of the choroid or ciliary body, Liszauer AD et al, 340-344
Prevention of radiation-induced stenosis of the nasolacrimal duct, de Smet MD et al, 145-147
- Rats:**
Effect of antiplatelet drug therapy on the retinal vascular pattern in experimental diabetes mellitus, de la Cruz JP et al, 329-332
Oxygen-induced proliferative retinopathy in the newborn rat, Ventresca MR et al, 186-189
- Refractive errors:**
Variable expressivity in X-linked congenital stationary night blindness, Pearce WG et al, 3-10
- Regrafs:** see Transplantation
- Research:**
Thirty-five years of dedicated research [E], Addison DJ, 175-176
- Retina:**
Corneal changes in Tay-Sachs disease, Ghosh M et al, 190-192
Effect of antiplatelet drug therapy on the retinal vascular pattern in experimental diabetes mellitus, de la Cruz JP et al, 329-332
- Retinal diseases:**
Histopathological features of congenital fundus lesions in familial adenomatous polyposis, Parker JA et al, 159-163
Is corneal deposition of antimalarial any indication of retinal toxicity?, Easterbrook M, 249-251
Leber's congenital amaurosis with Duchenne's muscular dystrophy, Hazariwala K et al, 202-207
